

Covet Desk by Shin Azumi

Covet Desk by Shin Azumi

The Covet home office desk, designed by Japanese-born Shin Azumi, is a simple, practical design with a neatly discreet integrated drawer.

The solid oak or walnut frame, which supports a large glass work surface creating an aesthetically pleasing desk. With its clean lines and strongly defined structure it is perfect for the home office environment.

“Even though the Covet desk looks quite simple it’s very thoughtful. The cool thing about it is an innovative storage system caught between the frame’s legs that can act as paper and magazine organiser. Thanks to such storage the desk won’t lose its minimalist and stylish look after you start to use it.”
