

Lucent Coffee Table by Matthew Hilton

Lucent Coffee Table by Matthew Hilton

Joining the glass panels of this contemporary Lucent coffee table at right angles creates an unusual, warm effect as the translucent panels overlay darkening the shades. The top and base panels have a curved edge, made from tempered glass which mean the tables can withstand the demands of family life.

The right-angles of the Lucent tables create a division inside which can be used to display objects or store books and magazines. Using a classic material such as tempered glass for a collection of tables makes these handsome, yet delicate tables ideal for the home, or within hotels and bars.

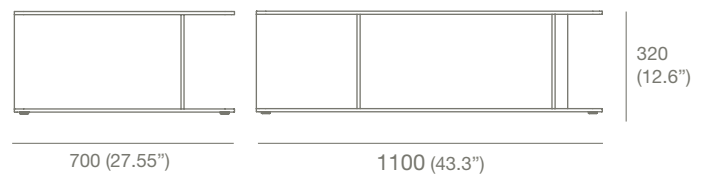

Key Features
