# OKSEN™

DESIGN BY ARNE JACOBSEN, 1966

---

## BRING BACK BOLD

To make any lounge setting superior - in a private home or a corporate office - we introduce Oksen™ by Arne Jacobsen. Unlike many of Arne Jacobsen's other designs, Oksen was not designed for a specific architectural project. It was a product of years of experimenting.

The chair was considered quite rare among critics due to its short original production period as well as its controversial yet powerful expression. Add a matching footstool for the complete bold and superior Oksen experience.

## Colours & material:

Oksen™ comes in leather only and in three different leather types: The beautiful Elegance leather and the strong Classic leather in the colours Black or Walnut and finally in Extreme leather in Black only.

The base of the chair is the original and recognisable Arne Jacobsen 5-star base, and the base of the matching footstool is the 4-star base. The base is available in black powder coated and satin polished aluminium.
