<td>Oak veneer / leather or fabric upholstery</td>
</tr>
</tbody>
</table>

### Technical features

**Body**

Ava’s body is made out of solid wood, while the bent backrest is made out of thin veneer slices of high-quality oak. Product elements are connected with characteristic and visible wedged mortise and tenon joints. Felten gliders are attached to the chair legs and are suitable for most flooring options. The seat is attached to the body through matte black plastic seat spacers.

**Seat**

Three material options for a seat are available: as a form-pressed veneer seat or as leather or fabric upholstered options. For further information please see Selected and Available material pages in this document.

**Finish**

Wooden parts are available in two plant-based Hardwax oil finishes (colours), which retain the wood's natural state, as a white or natural oil or two dark-colored lacquered options as a Charcoal or Black.

**Cleaning**

Please see Product or Material page on our website.

### Standards and certifications

### Notes to consider

**Variations**

Natural variations in wood color and surface may occur. Regular maintenance will ensure the wood preserves its authentic beauty and can last for generations.

**Product changes**

Please note that Gazzda reserves the right to alter construction and design without notice.

**Dimensions (tolerances)**

The dimensions shown are indicative, they may vary due to the natural properties of wood, season, or manufacturing processes. Deviations from the specified size may occur, usually no more than 1 cm.

For all additional inquiries regarding Ava seating products please feel free to contact us.
