

LITTLE FRIEND™

The multi-purpose table Little Friend™ designed by Kasper Salto is a small yet significant piece of furniture in the history of Fritz Hansen. The ground-breaking design was the result of a series of a think tanks' ideas of new ways of working and living. Little Friend is a flexible, multifunctional and portable solution to the challenges of modern minimalist working and living. It is perfect for your laptop as well as your morning coffee.

REPUBLIC OF **Fritz Hansen**®

PRODUCT DESCRIPTION

Little Friend™ is available in two models: A height-adjustable version and a version with fixed height. The button on the top of the height-adjustable model is made of brass, polished and chromed, and activates the height adjustment. The top has a cut-out carrier handle. The tabletop is available in two versions: compact laminate in various colours and veneer. The centre tube on the height adjustable model is a telescope tube: the outer tube is in mirror chromed steel and the inner tube is in satin matt steel. On the model with fixed height the centre tube is in mirror chromed steel. The three-legged foot and the flange are pressure moulded polished aluminium. The table is also available with a lacquered base matching the colour of the tabletops made in compact laminate.

DESIGN

Kasper Salto, 2005.

KASPER SALTO 1967-

Kasper Salto was trained as a cabinetmaker with Jørgen Wolff. He graduated in 1994 as a designer from the Danish Design School. During his studies Salto spent a term at the Art Center in Switzerland. From 1996-1997 Salto lectured at the Royal Academy of Art in Copenhagen and was also appointed a member of S.E. (The Cabinet Makers' Autumn Exhibition). In 1997 Kasper Salto became an exhibiting architect for S.E. at the Museum of Applied Art in Copenhagen.

In Kasper Salto's work the Danish tradition of furniture design is continued in a well-balanced combination with international industrial design. Salto's main source of inspiration is nature's superior way of designing and colouring. In spite of his young age, Kasper Salto has already received several design awards for his work. In 2004 he founded the design company Salto & Sigsgaard with architect Thomas Sigsgaard, working mainly in the field of product design, lighting and interiors.

TABLETOPS

Little Friend™ is available in compact laminate in the colours white and black and with veneer in oak and walnut.

ENVIRONMENTAL PRODUCT INFORMATION

Multi-functional table for offices, lounges and private use.

MATERIALS

The table is available in two models; a height-adjustable version (KS11) and a version with fixed height (KS12).

Tabletop

The tabletop is made in full-coloured compact laminate or laminated with veneer in walnut or oak. The button on the top is made of brass that is polished and chromed.

Base

The base consist of a centre tube. On the height-adjustable version it consist of telescope tube where the outer tube is in mirror chromed steel and the inner tube is in satin matt steel. On the version with fixed height the centre tube is made in mirror chromed steel. The centre tube has a three-legged foot and the flanges of the foot are made of pressure moulded polished aluminium.

The base is also available in a lacquered finish with polyurethane (PUR) lacquer.

Materials in %

The below figures illustrate the weight allocation between the different materials used. Items with a weight < 1% of the total product weight are not included in the figures below.

Model w. compact laminate tabletop

PACKAGING MATERIAL

The table is shipped in a cardboard box. Inside the box the table is covered with a plastic bag and protected by PE foam. All packaging material can be recycled.

REPAIR, DISPOSAL AND REUSE

In case of repair and disposal the table can be disassembled into two materials (tabletop and legs + screws) for recycling. All parts of the base can be recycled. Check local regulations for recycling in your area and whether there is potential for reuse.

MANUFACTURING PROCESS

Suppliers

Suppliers' environmental stance is examined as part of Fritz Hansen's Quality and Environmental Management Systems before Fritz Hansen enters into collaboration with a supplier.

Chrome surface treatment

Fritz Hansen uses both trivalent chromium (chrome 3) and hexavalent chromium (chrome 6) for chromium plating. Fritz Hansen will convert to solely using trivalent chromium (chrome 3) when the capacity in the Industry allows it.

Metal

Production scrap (steel and aluminium) is collected for recycling.

MANUFACTURING PROCESS

Environmental Systems

We are aware of our environmental responsibilities. Therefore, in the autumn of 2004 Fritz Hansen obtained the ISO 14001 certification in the environmental management system. The certification is a guarantee to our customers and the authorities that we comply with the requirements of the ISO 14001:2015 standard.

Quality System

Fritz Hansen is also certified according to the quality system ISO 9001:2015.

Employee Health and Safety

Fritz Hansen aims at meeting or exceeding OSHA standards.
