DESCRIPTION
The Embrace Sofa is a modular sofa with a distinctive wooden frame that unites a stringent geometric expression with flexible, unrivalled comfort and craftsmanship. The Embrace Sofa comprises ten modules all told, each of which is combinable in every way imaginable, but they can also stand alone, making the sofa exceptionally flexible. The wooden frame and the firm back have a stringent expression, while the upholstery’s piping cord produces finely highlighted lines that accentuate the textile or leather seam. The soft down layer on the seat contrasts with the stringent look and – together with the sofa’s loose cushions – provides pleasant, embracing comfort.
