Ocean Bench
Discarded fishing nets and recycled hard plastic

The Ocean Bench is a part of the Ocean Collection, a reimagined outdoor series, originally designed in 1955 by Jørgen and Nanna Ditzel. The design is reissued in ocean plastic waste to prevent pollution of the world's oceans. The Ocean Collection is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles. Durable for both private and public use.

### Materials
Slats made from discarded fishing nets mixed with recycled hard plastic. One bench contains 3500g / 123oz ocean plastic waste
- Steel tube, 20% recycled steel, Gunmetal finish
- Gliders Hard plastic gliders installed as standard

### Dimensions
- W 157 cm D 58 cm H 81 cm
- SH 46 cm ARH 67 cm / W 62” D 22” H 32” SH 18” ARH 26”

### Weight
- 16.6 kg / 36.5 lbs

### Packaging
- 1 box / 1 pcs.

### Maintenance
Please follow our material cleaning and care guide [here](#)

### Environment
Outdoor

Mater Sustainability Factsheet

Ocean waste
Old fishing nets from the ocean are collected, washed, shredded and made into pellets, also known as green plastic. We use ocean waste for our outdoor series and injection moulded chairs.

Steel
Our Steel is made from 20% recycled steel with a gun metal finish. Steel is a strong and light material that can be processed in unlimited ways.

Repair for long lasting
Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info here

CO₂ Footprint
At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.

Read more about how we measure the CO₂ footprint here
