

Cross Side Table by Matthew Hilton

Cross Side Table by Matthew Hilton

The Cross side table by Matthew Hilton has a solid oak or walnut oval table top and base with a chamfered edge detail. It perfectly complements the sofas and armchairs within our collection, especially when combined with the Cross round coffee table or Cross oval coffee table.

The side table's simple silhouette and compact footprint make it great for small-spaces and has been a popular choice for our customers looking for a modest side table.
