

Eos Bench by Matthew Hilton

Eos Bench by Matthew Hilton

Eos is a contemporary outdoor collection which is physically and visually light, smartly proportioned and very comfortable.

Certain to inspire leisurely outdoor living and dining during the long days of summer, this collection was named after Eos, the Greek goddess of dawn and bringer of light.

The Eos Bench is fully constructed from powder coated, rust-proof aluminium with hard-wearing nylon glides, suitable for all floor types.

Two benches can fit neatly under the Rectangular Table when not in use.

Notable commercial projects to feature Eos include London Olympic games 2012, Royal William Yard, Imperial War Museum, LA Music Centre.
