

## Silent series

Designed by Meike Harde, Germany

---

A minimalist range of sideboards, which are elevated from the ground by an elegant steel frame. Silent's doors are linked by genuine wood craftsmanship, where the wood is diagonally cut to give the impression that Silent is made from two different types of wood. Instead, it features a discreet detail that gives the design its superior craftsmanship.

### Meet the designer

My designs are characterized through fine structures, certain transparencies and subtle details adapted in pure shapes. My designs aim towards an aesthetic synergy of material and form. I believe that a decorative element should walk hand in hand with a useful purpose. For me, function and aesthetic are a unified whole.
