ALETA

Elegance in the subtle

Collection designed by Jaime Hayon, 2017

If we look for a leitmotif in the Viccarbe collection, that would be the combination of synthetic structures and extra comfortable seats. The simplicity, the contemporary design of its chairs and armchairs comes from the hand of bases that have the precise material to define the use and the function, free of all useless adornment. On the other hand, comfort comes from subtle details on both the inside and outside of each piece. Aleta was born in this way, achieving a perfect balance capable of fulfilling the creative proposal of Jaime Hayon, and the evolutionary proposal of the Viccarbe collection.

"With the international vision, with the mixture of know-how, and of combining different ideas and dialogues, certain products were released with which we are very satisfied today.

As a designer—just like Viccarbe—I'm very functional. Not minimalist, but simple. (...) With Viccarbe, the idea was to find a mutual language. The turning point has perhaps been found by making a few more expressive forms on the chairs or tables we have made, finding a way, a balance for both. I believe that the real collaboration with companies is this: to finda balance."

Unwind Hotel Otaru, (Japan)

Hospitality — Unwind Otaru represents the renovation of an old building located in the prefecture of Hokkaido, north of Japan. Its vintage aesthetic combines perfectly with the contemporary furniture and finishes chosen for the new layout. As with the Aleta collection, achieving the right balance is fundamental.
