CAMBIO

A minimalist approach

A collection of tables designed by Victor Carrasco, 2022

“As the Greek philosopher Heraclitus said, “the only constant in life is change”. The best relationships as well as the finest designs evolve only in a very natural manner. My wish was simple, I allured to transit from a square to a round surface with kindness. This is how Cambio is born. A new collection of central bases to create infinite possibilities for our tables made

for work, homes, or collectivities. An exercise of subtleties to outline a timeless design, timeless and silent as well as iconic thanks to its elegant morphology and its profound message to promote sensible and sustainable changes.”
