Get immersed and transport yourself into the era of soft collaborative comfort with Savina. This is Savina.

# Savina takes its name from the natural entrance to the island of Formentera

Savina takes its name from the natural entrance to the island of Formentera in Spain. This island is possibly one of the most serene places in the Mediterranean that connects you with nature and makes you unwind. This pleasant feeling of relaxation is what we wanted to recreate when sitting on a Savina sofa.

Featuring Savina with chaise longue, matching cushions and upholstered arm.

With Savina we wanted to fulfil one of our maxims: designing the most comfortable modular sofa that reinterpreted to perfection the feeling of sitting on a cloud and the relaxing sensation of floating on water. A collaborative island that conveyed both visual and physical comfort, with a more holistic approach, where the entire human routines have been considered to bring the most pleasant working experience.

# DESIGNED FOR SUSTAINABILITY

*“We have created a recyclable sofa, made with as many components as possible from recycled materials. A living project that will be updated as we continue to strive in recycling innovation.”*

For us there is nothing more sustainable than creating pieces that will last a lifetime. Pieces that will be part of our journey and will be present in our everyday. Everything we make must be meaningful for the environment and for our lives.

With the clear purpose of leading the way into a more sustainable design industry, with Savina we wanted to go a step further. We pursued a recyclable sofa, made with as many components as possible from recycled materials. A living project that will be updated and renewed as we continue to strive in recycling innovation. We also desired a sofa that was pure comfort, both visually and physically, and invited users to sit on

it for hours, collaborating, sharing thoughts, or just relaxing. Our "design for sustainability" ethos focuses on implementing changes in our collections, that prioritize the environment and foster conscious consumption habits. We have attained a recycled sofa that respects the user's requirements of space, use and function. A flexible sofa that works in any type of environment and contributes to a more respectful design industry. Therefore, we stand to innovate and bring conscious practices into our sector that will lead the change in how we perceive design. We create designs to last.
