GUBI.COM

Characteristics

Velvet is a type of woven tufted fabric with a short dense pile. This delicate velvet upholstery is a living fabric, therefore, when exposed to pressure, the fibers/nap may appear flat, resulting in slight color shifts or marks. On the curves of the furniture, the velvet can shift from lighter to darker hues, depending on the pile's direction. All GUBI furniture with authentic velvet is upholstered by hand.

Velvet

Care & Maintenance

- If the velvet fibers appear flat, it is suggested to use a steamer to raise them. When a steamer is not available, a damp (not wet) cloth can be applied on the area overnight, which will restore the fibers. It is recommended to treat the entire surface to avoid color differences. Velvet must not be rubbed vigorously, as this may damage the fabric and color. Do not iron the velvet.
- Always treat stains promptly. Sponge the stain, never rub. A gentle blotting action with an absorbent cloth or sponge is most effective. Work inwards from the outside edges to avoid spreading the stain.
- Blot up wet or oil-based spills quickly with an absorbent cloth, tissue or sponge.
- For solid or semi-solid spills, lift off excess before treating, using a dull knife or spatula.
- If the stain has already dried, gently brush off any excess material, then dab gently with a damp cloth or sponge until it disappears.
- No upholstered furniture should be in direct sunlight (outdoor textiles have high UV/light resistance and are approved for sun exposure)

Structured Fabrics

GUBI

Characteristics

The 'Structured Fabric' upholstery collection comes in several types of textile materials, colors and structures. We also call them Bouclé in our recommended fabric collection.

GUBI Recommended Upholsteries

Around Bouclé	Dora Boucle	Karakorum	Tempt
Artemidor	Eero	Light Bouclé	Vidar 4
Ascendent	Gaja Classic	Lupo Special Diagonal Bouclé	Zero
Aurin	Harp	Safire	

Care & Maintenance

- To remove dirt or stains, use a damp cloth.
- No upholstered furniture should be in direct sunlight (outdoor textiles have high UV/light resistance and are approved for sun exposure)

Sheepskin

GUBI

Characteristics

Sheepskin has a gentle feel and comes in four color variations. To ensure the skin's soft texture, each skin is treated manually. The skin regulates temperature in a natural way and has a cooling effect when it is hot and keeps the user warm when the temperature is cold.

GUBI Recommended Upholstery

Sheepskin

Care & Maintenance

- Air and Vacuum-clean the upholstery regularly.
- If spots occur, they should immediately be soaked in water.
- Clean with a sponge, lukewarm water and a mild wool shampoo.
- No upholstered furniture should be in direct sunlight (outdoor textiles have high UV/light resistance and are approved for sun exposure)

Characteristics

Chenille is a soft and resistant yarn. The word chenille comes from the French language and means “caterpillar”, whose fur the yarn is supposed to resemble.

Bonito

Mumble

Smilla

Care & Maintenance

- To remove dirt or stains, use a damp cloth.
- Over time, the pile may show a crushed effect, which can be reduced by steaming the fabric at a 30 cm distance while brushing it. The steam should not be directly applied on the fabric.
- No upholstered furniture should be in direct sunlight (outdoor textiles have high UV/light resistance and are approved for sun exposure)

Characteristics

The 'Basic' upholstery collection comes in several types of textile materials, colors and structures. The combination of fabrics could be varied from different kind of fabrics such as Linen, Cotton, Polyester, and wool.

Clay	Hot Madison Reboot	Remix 3	Flair Special FR
Drive	Mica	Steelcut Trio 3	
Hallingdal 65	Plain	Sunniva	

Care & Maintenance

- To remove dirt or stains, use a damp cloth.
- No upholstered furniture should be in direct sunlight (outdoor textiles have high UV/light resistance and are approved for sun exposure)

Characteristics

Our outdoor fabrics are designed for high performance in outdoor spaces. They can withstand prolonged sun exposure and is resistant to mold, mildew and dust, making it easy to clean and maintain. They are available in a cluster of colors designed to complement and enrich contemporary outdoor and leisure expressions.

GUBI Recommended Upholsteries

Chevron Outdoor FR	Linee
Natté	Lorkey
Libera	Udine

Care & Maintenance

- For cleaning the upholstered surface, first try to brush off the dirt gently. If this is not enough then vacuum the surface. If further cleaning of the padding is needed, a stain remover is recommended. The cleaning has to be gentle and must always be tested on the most invisible area of the surface before the actual cleaning.
- Avoid blotches by gentle, circular rubbing towards the stain. To avoid stains, quickly remove the dirt with a piece of absorbing household wipe and clean with water and colorless washing-up liquid.
- No upholstered furniture should be in direct sunlight (outdoor textiles have high UV/light resistance and are approved for sun exposure)
