## *Characteristics*

Canvas is a plain-woven fabric. It is known for being durable, water-resistant, and lightweight despite its strength. It has a tighter weave than other woven fabrics, which makes it stiffer and more durable.

## *Care & Maintenance*

- Wipe the canvas with a dry cloth or a damp cloth soaked in warm water. Use only soft cloth for wiping and polishing, never sponges or steel wool.
- Do not use abrasive household cleaners. Do not use acidic or alkaline cleaning materials, glass cleaner or household ammonia.

*The information included in these materials is guidance on the proper care and maintenance of GUBI products, but this guidance can not be considered a guarantee of specific results. GUBI is not liable for any damage resulting from care and maintenance activities. Information from suppliers of chemicals and cleaning solvents, including but not limited to label instructions, should always be followed.*
