DESCRIPTION

Louis Weisdorf's contemporary and classic design philosophy is echoed in the Multi-Lite Floor Lamp. With its timeless elegance, distinctive style and unique multi-functionality, the Multi-Lite Floor Lamp brings life and character to any interior space. The Multi-Lite lamp design is created in 1972 by the Danish architect Louis Weisdorf with the aim of reflecting his passion for diversity. Due to its unique design, the two opposing outside shades can individually be rotated and transformed into multiple combinations and encourage for personal installations and expressions whenever desired. Always with Weisdorf's design philosophy in mind, the light can be directed upwards, downwards or exude an asymmetric art light without exposing the light source.
