DESCRIPTION

The PD2 Floor Lamp is designed in 1955 by Barba Corsini to be part of the interior decoration in the attics of one of the world's most prominent buildings, La Pedrera in Barcelona. For the base of the lamp, inspiration came from the vaulted ceilings of La Pedrera, whilst the inspiration for the cylindrical shape and unique, perforated detail of the chimneys influenced the form of the lampshade. The PD2 Floor Lamp has a powerful simple character, which also is an apt description of Corsini's personal design style and fits well into any contemporary home.
