

Eternity Armchair

Coffee shell or wood waste mixed with post-consumer e-waste

The Eternity Armchair is made with an organic-shaped shell of Matek®, made in a combination of post-consumer e-waste and either wood or coffee waste. The light armrest made of steel offers extra comfort to the sleek and sculptural chair. The chair is available in several Matek® blends and upholstery options. The Eternity Armchair is designed to easily integrate into various interior aesthetics and is durable for both private and public use.

Mater Sustainability Factsheet

Matek™

Matek®

In alliance with large corporations, Mater explores new technology that recycles industrial fibre and plastic waste. This results in five new unique patented materials under the name Matek®.

Read more about Matek [here](#)

Steel

Our Steel is composed of 20% recycled steel. Steel is a strong and light material with the quality that it can be processed in unlimited ways.

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.

Mater Take-Back

We unhesitatingly offer to take all our furniture made from Matek® back at the end of its life to recycle it into new furniture.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

Green energy

This product is produced in a production facility that is 100% powered by hydropower – a renewable energy resource.
