

Eternity Swivel, Polished Base w/ castors

Coffee shell or wood waste mixed with post-consumer e-waste

The Eternity Swivel chair is made with a soft-shaped shell of our waste material Matek®. The waste materials used for the Matek® come from post-consumer e-waste mixed with either wood or coffee waste, depending on the colour. The base frame is made of 96% recycled, polished aluminum and is mounted with castors for easy flexibility. The Eternity Swivel Chair is extraordinarily suitable as an office chair.

Mater Sustainability Factsheet

Matek™

Matek®

In alliance with large corporations, Mater explores new technology that recycles industrial fibre and plastic waste. This results in five new unique patented materials under the name Matek®.

Read more about Matek [here](#)

Aluminum

The base of the Swivel chair is made of 96% recycled aluminum. The last 4% is new material added to secure the stability of the frame.

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.

Mater Take-Back

We unhesitatingly offer to take all our furniture made from Matek® back at the end of its life to recycle it into new furniture.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

Green energy

This product is produced in a production facility that is 100% powered by hydropower – a renewable energy resource.
