

Ocean Lounge Table

Discarded fishing nets
and recycled hard plastic

The Ocean Chair is a part of the Ocean Collection, a reimagined outdoor series, originally designed in 1955 by Jørgen and Nanna Ditzel. The design was first reissued in 2019 in a new material using recycled fishing nets to produce the characteristic slats of the design. The Ocean Collection is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles. Durable for both private and public use.

Mater Sustainability Factsheet

Ocean waste

Old fishing nets from the ocean are collected, washed, shredded and made into pellets, also known as green plastic. We use ocean waste for our outdoor series and injection moulded chairs.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

Flat-packed

All tables in our collection are flat-packed, ensuring a more sustainable journey from manufacturer to end customer. Follow the inlay for easy assembly of the table in your home.

Steel

Our Steel is made from 20% recycled steel with a gun metal finish. Steel is a strong and light material that can be processed in unlimited ways.

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.
