# Our sustainability commitment

We believe that durability and sustainability start with choosing the right quality material.

As a vertically integrated company, we know we are in a unique position to contribute to a sustainable shift in the industry.

From design to the sourcing of raw materials, packaging and testing, we pay great attention to environmental protection and consumer safety throughout the product-development process. As a company, we work to minimise waste and close the loop toward circularity. Together with our partners, we strive to do our humble share.

Just as society and the industry evolve, so do we. We know there is no finish line in this journey and continue our efforts to constantly improve our products and operations.

## DURABILITY BY DESIGN

We pay particular attention to the quality of our products, not only during the development stage, but throughout the entire life cycle. We believe that durability and sustainability start with choosing the right quality material, and wooden products are particularly suited for refurbishment.

Our team is always available to advise on how to care for products and thus extend their lifespan, as well as how to repair them. When developing new products, we consider repairability at the earliest design stage. Where possible, we provide spare parts to further extend the life of our products.

## THE ORIGIN OF OUR WOOD

The ultimate noble and renewable material, all our wood is sourced from responsibly and carefully managed forests compliant with the EU Timber Regulations and the Forest Law Enforcement, Governance and Trade (FLEGT) Action Plan. In addition, our wood sourced from Indonesia is verified under the Indonesian Timber Legality Assurance System (SVLK).

Our teak collection includes products certified as FSC® which are clearly labelled in the catalogue. Finally, we carry the FSC® CoC (Chain of Custody) certification of our distribution centres.

## FOCUS ON QUALITY

Producing furniture and accessories at the highest quality, strength and safety is extremely important to us. Our internal protocols are based on the standards set by ANSI (American National Standards Institute) and BIFMA (North American Business and Institutional Furniture Manufacturers Association).

Moreover, specific products within our collections are certified by independent external facilities in order to meet the European requirements for contract-grade use. Products also meet specific requirements based around ecological and health regulations such as toxic substance use and flammability.

## WASTE REDUCTION AND CIRCULARITY

We want to remain as environmentally friendly as possible, working to reduce waste from the earliest design stage. With this principle, we design to reduce or reuse as much scrap wood as possible. Production waste such as leftover logs, wood and sawdust are reused for other purposes.

With full control over the (re)design, production, distribution, refurbishing and recycling processes, we are developing a vision for sustainability based on designing for circularity and lengthening product lifespans.

Tribeca

workspaces to  
create, connect,  
flex, focus, unwind

Overlooking the Botanical Garden in Europe's capital, the Belgium-based real estate management firm, Tribeca Partners, is gifted with beautiful views that extend beyond the office walls. This relationship between interior and exterior is intentional; connecting the workplace with the environment in which it is located is essential.

**DESIGNER: SOPHIE THIELEMANS**

Modern workdays have taken on a very different form. A variety of spaces are needed for a wide range of tasks; flexibility to shift and flow with the callings of worklife is essential. Tribeca's offices have taken this philosophy and brought it to fruition in a clever, practical, functional and dynamic way.

The open floor plan encourages connection between colleagues. Dedicated workstations have been replaced with mostly flex spaces. Large, comfortable sofas are designed to foster a collaborative environment, and the work café provides a space where teams are welcome to enjoy a coffee and connect.

a workspace that subtly reflects the values of their everyday business

Multi-brand retailer Brooklyn Brands has offered forward thinking, non-conformist and nonchalant fashion to its customers since 1972. Now managed by the founder's son, Ubbe, and his son's wife, Chloe, Brooklyn has grown into a distinct, relevant and trusted European brand.

With a goal to design a new headquarters as stylish and liveable as its clothes, Sfeer+Co was employed to design the space.

At the core of this project, both partners prioritise craftsmanship, enduring design and personal service, and the final outcome exudes a practical, warm and urban atmosphere.

# Brussels Airlines

**LOCATION: BRUSSELS**

**SECTOR: HOSPITALITY**

Brussels Airlines passengers traveling to Sub-Saharan Africa can await boarding time in style. The Sunrise Lounge, located in the T-zone of Brussels Airport, has been redesigned into a more spacious lounge, complete with Ethnicraft furniture for optimal comfort.

To give guests an enjoyable experience, the Sunrise Lounge has been reimagined to include new dining options, spaces to rest for a long layover, and reorganised floor space with more seating — through a large window, travelers can watch planes take off and land from the comfort of our Osso stools.

Within the lounge, solid oak Torsion tables organised in two- and four-top configurations welcome travellers to stay and have a bite, read a book or go over their upcoming itinerary. Benches and upholstered Bok chairs provide ample seating to spend time prior to boarding.

# Public Space

Located in a residential tower in Amsterdam-Noord, an area known for its lively culture, Public Space offers a unique all-day experience.

The goal of Co-Founder David Gillies and his business partners Jacco Verburg and Menno de Geest was to create a playful and fun space where guests could enjoy good food and drinks while surrounded by beautiful, quality design. The Noord area is ripe with art galleries, green spaces and trendy restaurants, and Public Space's clean, homey interior reflects the eclectic vibe of the neighbourhood.

all kinds of dining

"We want our place to be playful, we want it to be fun, but we also wanted it to be of very high quality. We want a place that is somewhere we want to enjoy the kinds of drinks and the kinds of things to eat that we like. Beauty is a very important part of hospitality," said David Gillies, Public Space co-founder.

## Belgian Music Festival

A major Belgian music festival aimed to transform its backstage areas to help create a warm and inviting atmosphere for artists and VIP guests, creating an oasis that matched the festival's aesthetics.

At the heart of the project was the desire to impress and delight the artists. The backstage needed to be a place where they felt comfortable so they could perform their best and recharge between sets.

Outdoor grade A teak furniture was selected, including pieces from the Jack collection such as the lounge chair and three-seater sofa; the dining table, chairs and bench from the Bok collection; and the Circle dining table.

# Hôtel Le Mosaïque

Located in southern France mere steps from Canal de la Robine in Narbonne, Hôtel Le Mosaïque holds a modest 15 rooms and suites for a peaceful and intimate refuge for relaxation and well-being. The building, a repurposed family home dating back to 1870, features original architectural details, yet offers the amenities and style of a modern hotel. Naturally, the timeless quality of Ethnicraft furniture complements the space perfectly.

The hotel is owned by the Rizzo - Testa family, with roots in France and Argentina. Guests may enjoy pool and garden areas, as well as a full restaurant and bar offering Franco-Argentine cuisine made with local ingredients.

Throughout the property, popular Ethnicraft furniture can be found, from useful bedside tables like the Geometric side table to Torsion dining tables and DC chairs, a winning combination for enjoying a cup of coffee and a snack while getting lost in a good book. Each piece has been carefully selected to fit the style of the project seamlessly.

# How to care for our products

## About natural materials

The beauty of natural materials lies in its peculiarities and imperfections. That is what separates true beauty from the artificial. Variations in wood grain and colour, knots, medullary rays and other natural characteristics are inherent in solid wood. These are far from flaws, but an intricate part of its character. Natural stone can also have minor pitting or surface fissures. We believe that these imperfections contribute to the charm of Ethnicraft products.

Wood, like any other natural and porous material, continues to absorb and release humidity throughout its life. Although Ethnicraft designs furniture that adapts well to the hydrometric conditions of its environment, some cracking or movement may occur. Please do not be alarmed, this is a normal response to the furniture's environment.

### TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be moved from one space to the next, carrying over the stories of one lifetime into another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that age beautifully.

### CRAFTSMANSHIP

Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflect our design values.

## General care & maintenance tips

- 01** Recommended humidity in the room for interior products: between 40 and 60%.
- 02** Ideal room temperature: between 21°C/70°F and not below 14°C/57°F.
- 03** Do not drag the furniture along the floor; always lift the furniture when moving.
- 04** Avoid exposure to extreme conditions: do not place furniture or accessories near heating sources or air-conditioned spaces.
- 05** To prevent staining, we recommend that any spills are removed immediately.

- 06** When cleaning the surface, always work in the direction of the wood grain.
- 07** Use placemats and/or coasters to prevent hot pots and pans, or cold glasses and bottles, from damaging items.
- 08** Always ensure water and solutions used to clean the floor do not come into contact with the furniture's base, as it might leave permanent marks. For items that feature rubber glides, avoid alcohol-based cleaners on floors they are in direct contact with.

- 09** Indoor products are not intended for outdoor use. An outdoor product will always indicate so in its name. Last but not least, we always recommend to carefully read the care instructions specific to your item.
- 10** To prevent colour differences, do not place furniture or accessories in direct sunlight, and move objects placed on the furniture from time to time. Open extendable tables on a regular basis.

# Upholsteries & soft furnishings

Do not wash unless clearly indicated on the label attached to the item. Machine or hand washing (even at a low temperature) might lighten the colour and shrink the fabric.

Some items have an anti-stain treatment applied to the textile. If this is dry cleaned or washed, it may affect the anti-stain performance. To ensure the anti-stain treatment properties remain effective over time, or to add protection to non-treated textiles, we recommend using Ethnicraft Fabric Protector.

Any spills or stains on textiles should be treated immediately. We recommend using Ethnicraft Textile Cleaner followed by the Ethnicraft Fabric Protector. Always follow the instructions on the label.

Pilling is the result of excess fibre on the fabric or from external sources. This is not a defect but a characteristic of many textiles.

For our leather items, many of the hides used are left in their purest form. This means there is little or no surface treatment, allowing for the unique natural beauty of each hide to come through. For cleaning and care, use the Ethnicraft Leather Care Kit. Follow the directions of use on the labels.

## TO KEEP UPHOLSTERIES IN OPTIMAL CONDITION, WE RECOMMEND:

- 01** Removing pilling by using an antipilling machine.
- 02** Avoiding placing item in direct sunlight.
- 03** Dusting or removing crumbs by wiping down upholstery with a clean cloth or soft brush. Do not rub.
- 04** Avoiding using a vacuum cleaner. If you do use one, select the lowest suction and use a soft upholstery attachment.
- 05** Treating spills immediately. Blot up as much of the spill as possible with a clean, dry, white cloth. Do not rub.
- 06** Treating stains by using a clean, slightly damp white cloth, blotting from the outer edge to the centre of the stain.
- 07** Avoiding chemical products on your upholstery.
- 08** Reviewing the care label or instructions specific to your item.

# All woods, hard surfaces & materials

## REGULAR CARE

For dusting, use a dry cloth. For cleaning, or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft, clean cloth to prevent spotting.

It is always recommended to protect any surfaces with coasters, mousepads or placemats. Repetitive daily use or heat can damage the finish. Always move objects such as flowerpots, vases, etc., from time to time. Ensure any excess water or dampness is wiped dry immediately to prevent marking the surface.

# Outdoor

Ethnicraft's Outdoor collection is designed to adapt well to a range of environmental conditions. The high density of teak wood means it is an excellent choice for outdoor use.

Our natural teak range comes without any finish or protective treatment. Over time, untreated furniture will grey with prolonged sun and rain exposure. This colour change is completely natural and purely superficial; it does not impact the strength or quality of the timber.

Our black teak range is brushed and varnished with the colour taint applied. This finish has been specifically developed to withstand natural elements such as severe high and low temperatures and UV light, as well as moisture and humidity.

While no additional treatment is required on any Ethnicraft Outdoor teak product, you can choose to apply a specialised teak cleaning product such as Ethnicraft Outdoor Teak Cleaner to remove any dirt buildup from items. To protect against stains and green deposits, and to slow the grey patina process of natural teak, you can use a teak protector such as the Ethnicraft Outdoor Teak Protector.

Our aluminium furniture is lightweight and powder-coated specific for the high UV of outdoor environments. Aluminium is a great low-maintenance material. See the full Outdoor care instructions for detailed care tips.

## OUTDOOR UPHOLSTERY & FABRICS

Ethnicraft Outdoor fabrics are water-repellent, UV resistant, hypoallergenic and maintenance-friendly.

Clean with clear water and a natural soap. Covers are machine washable up to 30°C/86°F.

All cushions are inserted with a long-lasting, all-weather quick-dry foam. To keep your Ethnicraft Outdoor furniture in optimal condition, we suggest fitting our custom-made raincovers during seasons when it is not in use, or during periods of bad weather.
